CCO Lookup Menu

- From the CCO Lookup menu, users can query SMUs and Service Packs information on various IOS-XR platforms and releases.
- Go to Tools – User Preferences to exclude certain platforms and releases from displaying under the CCO Lookup menu.
- If a SMU has already been downloaded to the CSM Server internal repository, a green check icon is displayed.
- Download a SMU by checking the checkbox and selecting Action – Download Selected Files. Then, select the server repository that will store the downloaded image.
