Host Dashboard

Host Dashboard

- **Invocation**
  - Navigate to this page by clicking the hostname under the Managed Hosts tab on the Home page.
  - Also invoked by using the "Search a host" search bar on the main menu bar.

- **Overview**
  - The Host Dashboard is a dynamic view. It refreshes every 10 seconds to display up-to-date information.

- **General**
  - Display the host connection information.

- **Software Packages**
  - Display the software packages of the host.

- **Scheduled Installations**
  - Display all the scheduled installations. When an installation is executing, a runner icon is displayed next to the scheduled installation.

- **Install/Software Inventory History**
  - Display both the install and software inventory history.

- **Action**
  - Schedule an Install.
  - Delete All Scheduled Installs.
  - Delete All Failed Installs.
  - Retrieve the Latest Software.
  - Edit Host.
